To pursue career in any company to utilize my competencies for contributing towards productivity of the company and thereby augmenting my potential capabilities.

Highlight: Website front-end, *Elementor*, *Monitoring the performance of the live website*, Troubleshooting Website Issues, Custom theme/Plugin, WooCommerce, WooCommerce Custom Rule, Website Deploy, Hosting Manage, etc.

ABOUT ME

A web developer with experience in creating and managing websites. Skilled in HTML, CSS, JavaScript, and PHP. Experience in using Content Management Systems (CMS) such as WordPress and Joomla. A team player with good interpersonal skills.

I develop WordPress / Joomla and custom responsive websites and customize them to suit the client needs and requirements.

I have been doing this for the past 5+ years and have developed websites for clients from all over the world.
