## PROFILE

Looking forward to a challenging work profile in the Software Development field. My key interests are working on new cutting-edge technologies, learning new tools, working on new innovative frameworks, and making the overall Software Development process optimized and efficient one.

## KEY PROJECTS

### TRADEMARK PASSPORT

**Technology :** PHP(Codeignator) / HTML5/CSS/Bootstrap

**Description :** It's simple. You're just a few clicks away from protecting your business. Search our broad attorney database and choose an attorney. Fill in your trademark details and you're on your way! We'll help to get your business protected now

- I am a solo developer for the backend part I had to manage all the things about this website and I had done Admin panel as well.
- <https://trademarkpassport.com/trademark-process>

### A PROFESSIONAL AFRICA

**Technology :** PHP(Laravel) / HTML5/CSS/Bootstrap

**Description :** To educate and inspire the next generation of global innovators while eliminating financial hindrances, particularly potential innovators from vulnerable and low-income communities

- I had work as a backend developer, I had worked on website's (backed work), Admin panel and as well as its project have mobile applications so I had worked with APIS development.
- <https://aprofessionalafrica.com/Home>

### GYM BUDDY

**Technology :** PHP(Laravel) / HTML5/CSS/Bootstrap

**Description :** Discover and book gyms around your location and also interact with others via messages, photos, videos and more.

- I had worked as a backend developer where I had manage all APIS for this mobile application.
