Full Stack Developer

Experienced Full Stack Web Developer with a demonstrated history of working in the computer software industry. Strong understanding of all phases of Software Development Life Cycle with a concentration on coding, designing, developing, and implementing various types of applications. I have specific knowledge and skills in creating new customized solutions to meet client-specific needs. Skilled in core PHP, Laravel, Django, CSS3, VueJS, AJAX, HTML, and JavaScript.

Experience

Mar 2020 - Continue Independent contractor Full Stack Developer

I am currently an independent contractor that works with local small businesses and international clients that help them solve their business operations and management problems through my developed web app solutions.

Nov 2020 - Jan 2021 DexterCode LLC, Islamabad Full Stack Developer

I worked here as a full stack developer. Working with Laravel, Codeigniter and VueJS frameworks, I developed valuable commercial applications that served thousands of people, ranging from music web applications to e-commerce centric ones.

Aug 2020 - Nov 2020 Creative Technology Ltd, Islamabad Full Stack Developer

Hired as a full stack web developer, I maintained and tested several mid size monolith web applications and added features upon changing requirements.

Apr 2020 - Aug 2020 Shades, Bahria Town, Rawalpindi Full Stack Developer

Employed as a full stack web developer, my responsibilities were developing, testing and deploying small businesses oriented web applications from local to international clients.
