Growing up around my mother, who is a passionate graphic designer, I discovered the art behind the process at a very young age. This hunger for a career in design led me to pursue fashion communication at NIFT. Over the last couple of years, as a student of fashion communication, I have been able to develop skills in: **Graphic designing, branding and advertising, social media design, publication design, trend spotting & photography.** Outside the academic boundaries, I also get excited about: Sketching, travelling, clicking picture of old monuments and learning how to cook exotic dishes.
