- ReactJs-Redux
- Redux-Toolkit
- JSON
- Github

#### SOFTSKILLS

- Team working
- Decision making
- Time and Self-management

## PROJECTS

---

### ① ECOMMERCE WEBSITE

Developed an Ecommerce website. These application comes with multiple features like login/sign in, product lists, order summary, discount offers, profile section, search bar, and many more which is possible with features of React like React hooks for state-driven conditions without writing a class, props for passing the variables, etc. It is a component-based structure. The application will be dynamic, interactive, and accessible on multiple platforms like laptops, tablets, and mobiles (responsiveness).

### ② CALCULATOR APP

Created a simple calculator which can perform basic arithmetic operations like addition, subtraction, multiplication, or division depending upon the user input.

### ③ TODOLIST APP

TODO List are the lists that we generally use to maintain our day-to-day tasks or list of everything that we have to do, with the most important tasks at the top of the list, and the least important tasks at the bottom. It is helpful in planning our daily schedules. We can add more tasks any time and delete a task which is completed.

### ④ ENGINEERING PROJECT

Created and Implemented an IOT based device and smartphone application. The application is Portable cooking machine using IOT. This machine is equipped to perform entire cooking process.

The main objective of developing these machines is to reduce the time, human labor and to replace human hands with machine hands.

## DECLARATION

---

I at this moment solemnly affirm that all the details provided above mentioned are true to the best of my knowledge and belief at all times, I shall carry myself in a manner that lends dignity to the organization and worthy enough of the person.
