

# Tanisha Sahu

## SUMMARY

An enthusiastic and passionate undergraduate with keen interest in C++, UI/UX and problem solving. I believe that my confidence and my effervescent personality are my greatest strengths. My ability and desire to learn and explore new technical skills will help me efficiently fulfill the requirements of users as well as contribute in company's productivity.

## PROJECTS

### Freshly Dropped- A figma design of a food service

- a food service that delivers freshly picked meal boxes for you to prepare at home.
- Buttons and filters to search for the specific meal.

### Blood-bank management system(group project)(GROUP PROJECT)(DONE WHOLE UI/UX)

- It is an APP developed in order to help the people who need blood.
- It also notifies you of the availability of different blood groups.
- I designed the UI part of the project.

### Food Donation and charity (COMPLETED THE UI/UX)

- It is an idea in support the hungry people and the people who live on the roads.Its an app to provide them necessary things for their living.

## SKILLS

### Languages

- Advance(C++)
- Basic(Javascript)
- advance(Java)

### Technologies

- HTML/CSS
- SQL/PLSQL/MySQL

### Tools & software

- Windows
- Git
- Figma/Canva
- Adobe Illustrator/Adobe aftereffects

### Other SKILLS

- Leadership Quality
- Effective Communication
- Active Listening
- Teamwork
- Collaboration
- Conflict Resolution

## COURSEWORK

- Data Structures Algorithm
- Object Oriented Programming
- DBMS
