Career Objective

- Forward-thinking and highly motivated professional with a background in Agriculture studies and efficient in good communication skills. Always wanted to contribute myself in the field where I will be closely working with nature. With ambition of working in a research-oriented firm I always wanted to learn Management, Finance, Sales and Business. I am a flexible candidate who is looking forward to learn new roles, positions and marketing in such firms. My passion is to solve problems faced by Farmers and identify the solutions in a short period of time.

Educational Qualification

- Bachelor of Technology in Agricultural Engineering.
(Final year pursuing)
Maharashtra Institute of Technology, Aurangabad.
(2019-2023)
- 12th HSC
(2019-Feb)
Radhabai Wankhede college of science, Phulambri.
- 10th SCC
(2017-March)
Aurangabad Police Public School, Aurangabad.

Work Experience

- Worked at Fiverr.com as a Freelancer
(2022-present)

(Fiverr is platforms which gives freelancing opportunities to individuals having skills in various domains. I was working as a video editor on Fiverr.com. My job is to actively monetize Youtube channel, create content and provide to clients. I successfully completed 100 orders and provided content to many clients throughout the globe).

Academic Projects

- Major project: Design of Aquaponics System for Leafy Vegetables.

(Successfully grown plants Basil and Lettuce simultaneously with Guppy fish. The system was based on Media type Aquaponics. The Nitrogen cycle and its conversion was closely monitored through water tests and the results were calculated. This setup was actively working for a course period of three months, later on cost estimation was calculated).

- Minor project: IOT Based Cattle Health Monitoring System and Automatic Seed Sowing Machine.

(Created an automated cattle health monitoring system to identify and tackle the diseases and other parameters through a IoT based system. There were several sensors used to identify the proximity and health conditions of the domestic animals, which will indirectly help small marginal farmers to find a cure before its too late. An initiation to prevent unnatural domestic death causes of farm animals)

Skills

- Adobe software (Intermediate video editing skills in Premier Pro, After effects, and Illustrator).
- Leadership (Relationship building, Leading the group, Managing multiple tasks).
- Communication (Efficient communication and interaction through English).
- Python (Beginner)
- Freelancing
