B.tech (Electronics and communication Engineering), 77%

2018

- **12th**
Greenland public school duhai, Ghaziabad
70%

2016

- **10th**
Greenland public school duhai, Ghaziabad
95%

TECHNICAL SKILLS

- Knowledge of Web designing (HTML, CSS, JavaScript, jQuery, Bootstrap, Photoshop) Php. Developer
- C Programming.

PROJECTS

- **Electronic Eye**
Electronic eye describes the design and implementation of LDR bases Security system homes, banks, malls etc where security is a major concern. The proposed system uses a light dependent resistor (LDR) to sense the light intensity. The LDR sensor sense the light intensity and generates an alarm for indicating thefts, and also turns on the lights.
- **Robot controlled by Android Application Bluetooth**
This is basically a Robotic Car that can be operated using Android mobile phone. This project is to develop a remote user interface control a robot via a wireless Technology (Bluetooth). The controlling of the Robot is done wirelessly through Android smart phone using the Bluetooth feature present in it. Here in the project the Android smart phone is used as a remote control for operating the Robot.
