

# RAZA HAIDER

FULL STACK DEVELOPER

## PROFILE INFO

Highly skilled and innovative software development professional with 1 year of hands-on experience in web application development. Focused and efficient learner with practical expertise in Web & Desktop Application, seeking a full stack developer position with Intellect.

## WORK EXPERIENCE

### Techno Tigers Software House OCT 2022 - Present

- Working as a Full Stack Developer to manage and create new projects.
- Develop new web apps and add new features to the existing web apps.
- Solve the problems faced during the addition of new features.

## FINAL YEAR PROJECT

### Web 3.0 Blockchain

The Application allows users to connect their MetaMask wallet on the Dapp and send Ethereum to other users on their MetaMask wallet address. The user can also see the transactions made on this blockchain address.

Technologies:

- HTML
- Tailwind CSS
- React
- Solidity

## PROJECTS

- Build a school management web app which consist of admin-panel, teacher-panel and student-panel. To ease the management of records and everything can be seen and manage from anywhere via access of internet
- Developed Trello board clone using react in the front-end and build APIS for the crud and to store data in the database. List and cards are draggable and cards contain description and activities.
- Develop a CMS web app where data can manage from the admin panel. Use TINYMCE for text as a text editor. So that it can be manage by anyone and user friendly..
