Projects

Accreditation Management System

My Final year project was Accreditation Management System. It was a web base project. The purpose of this project is to make everything computerize assignments, quizzes and exams etc. Manually (hard form) Accreditation file converted in to a soft form.

Restaurant Management System

It was Core PHP project. I was designed a mini framework of php. By using this system owner can create the profile of each restaurant with their dishes details etc. This project was created in my own mini created framework.
