About Me:

A curious mind and a keen learner who loves to explore the unknown and the laws of nature. So, I continued my studies along with my job as a Web Developer.

Generating, implementing ideas and helping in growth is one of the most important parts in both of my professional and personal life, so I love to spend time with people having creativity and vision as it helps in learning and thinking.

I believe in scientific thinking and wish to see a better society in the future, especially free from superstitions with a clean environment.
